Town Board Report for 08/03/2020

- 1. Milestone Began pavement work began today (08-03) on Hyden Rd as part of our Community Crossing Grant.***
- 2. Ahead of school starting tomorrow, all curbs and crosswalks have been painted around Spencer Elementary School.***
- 3. On July 20th Matt Turner turned in his 2-week notice. He is moving a few counties away. His final day of work will be August 5th. I have spoken to Board Member Bruce about this situation and we feel we should offer the job to our back up candidate from when we hired Mr. Turner 3 months ago. That would be Jake Mobley. Mr. Mobley passed all his driving and background checks with SPD and interviewed very well with us. At the time the only reason we chose Turner over Mobley was Turner had a little more Street work experience. By offering the position to Mobley it would prevent my crew from being short handed throughout another hiring process.***
- 4. Morgan Street Manholes.. As requested by the town board I have attempted to get estimates for a total reconstruction price per manhole. As of this time I have only received one back and that is from KGI Concrete out of Spencer. They bid a price of \$3,100 per manhole if we provided traffic control for them.***

Thank you,
Tony R Floyd
